

## Our Story

Nextiva is a cloud communications provider that delivers the most advanced hosted VoIP phone service, hosted PBX and online fax services to U.S. businesses. Our goal is simple: to make owning and running a business easier, less costly and more profitable. With state-of-the-art technology as the platform, Amazing Service® is truly the foundation at Nextiva. It means a commitment to solving customers' problems, communication-related or otherwise. From the first touch point and throughout all stages of the customer relationship, Amazing Service is the winning attitude of our staff; it is the dedication to first-call resolution and the focus on helping businesses succeed.

|--|------------------|
| Accounting & Financial Service providers | Consulting firms |
| Media and Communication services         | Hospitality      |
| Construction companies                   | Law Firms        |
| Software and IT companies                | Real Estate      |
| Insurance agencies                       | Restaurants      |
| Healthcare providers                     | Retail           |
| Nonprofit entities                       | Education        |

From one line of service to an entire call center, Nextiva's NextOS technology delivers calls seamlessly to anyone, anywhere.

## Premier Products

- **Nextiva Office:** More than a VoIP phone service, Nextiva Office adds your personality, professional messaging, auto-attendant, department routing, and an endless list of next generation features to make your business more productive and profitable.
- **Nextiva Analytics:** Gain unprecedented visibility into your call and employee activity data, enabling you to make the right decisions for your business quickly.
- **Nextiva Hosted Call Centers:** Nextiva Call Centers provide the flexibility to handle your call volume with the efficiency required to support your customers.
- **Nextiva SIP Trunking:** Keep your equipment and maximize your connectivity by upgrading your office technology without the risks. Nextiva SIP Trunking transitions your business to the cloud.
- **Nextiva vFAX:** Reduce costs, save time and minimize your carbon footprint with Nextiva vFAX. Send and receive faxes anywhere on your PC, tablet or mobile device.
- **Nextiva Drive:** Access your business from anywhere and sync as you go with Nextiva Drive. Store your files, videos, and documents in the cloud and you can edit and save them on any device.

## Summary

With Nextiva as their partner, business owners and managers can confidently run their business from anywhere, knowing that their revenue stream of incoming calls are always online and directed to the right person within their organization. Whether in one office location or nationwide call centers, Nextiva provides the tools, technology and support you need to run your company efficiently and profitably.

Each product and service we offer was engineered to give business owners competitive advantages that were previously only available to large enterprises with significant capital investment. Nextiva simplified business communications with so much more than a dial tone.
