

AudioCodes Installation Quick Reference Guide

Before Installing

1. Please contact Nextiva Support to verify specific information for the device to ensure it provisions properly.
2. If you are performing a desktop installation by placing the rubber bumpers on the bottom of the device, it is recommended that you utilize a grounding line to the grounding screw .

Getting Started

1. Connect the **GE** (Gigabit Ethernet LAN) port **1** to your network switch using a CAT5e (or better) cable.
2. Connect your A/C power adapter to the **POWER** port on your Audio Codes device, and then power the device on using the power switch.
